

# Welcome!

## Delridge-Highland Park Neighborhood Greenway

Public Meeting  
November 19, 2013

# Tonight's Open House

Learn about a proposal to build safer, calmer streets for you and your families; and about recommended rain garden locations and design.

# Safety in Seattle

Seattle has a goal of zero traffic fatalities and serious injuries by 2030. Greenways are one tool to help us reach this goal.

# What is a Neighborhood Greenway?

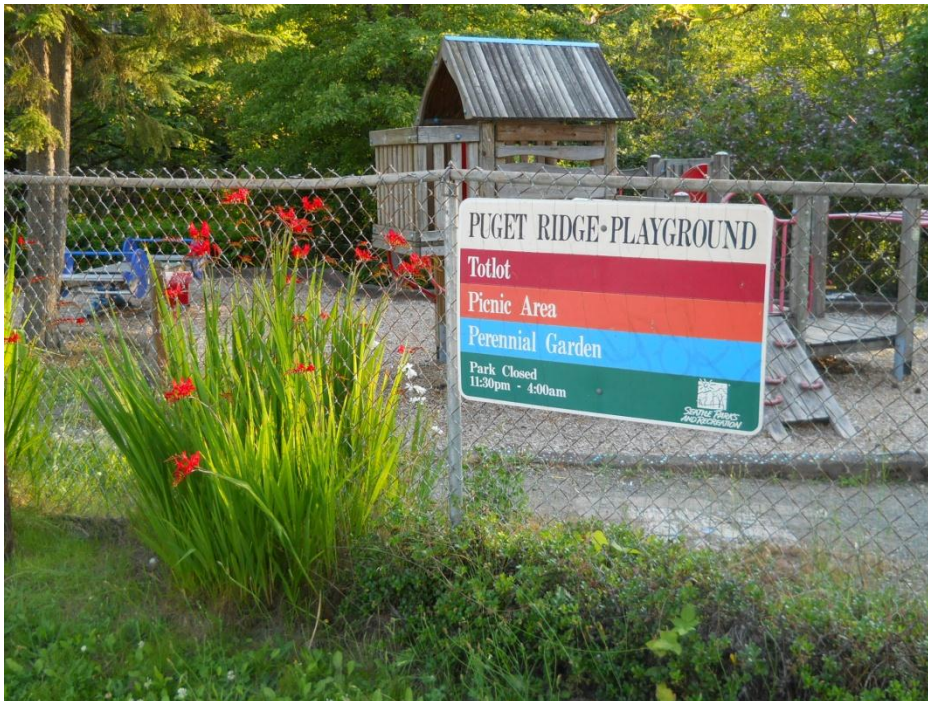

Safer more comfortable streets for people of all ages and abilities to walk and ride bikes

# Best Locations

Residential streets with low car speeds and volumes, fewer hills and connections to schools, parks, libraries and shops

# Design Elements

Greenways can include some combination of the following:

- 20 mph, stop and wayfinding signs
- Sidewalk and pavement repairs
- Speed humps
- Crossing improvements at busy streets
- Rain gardens

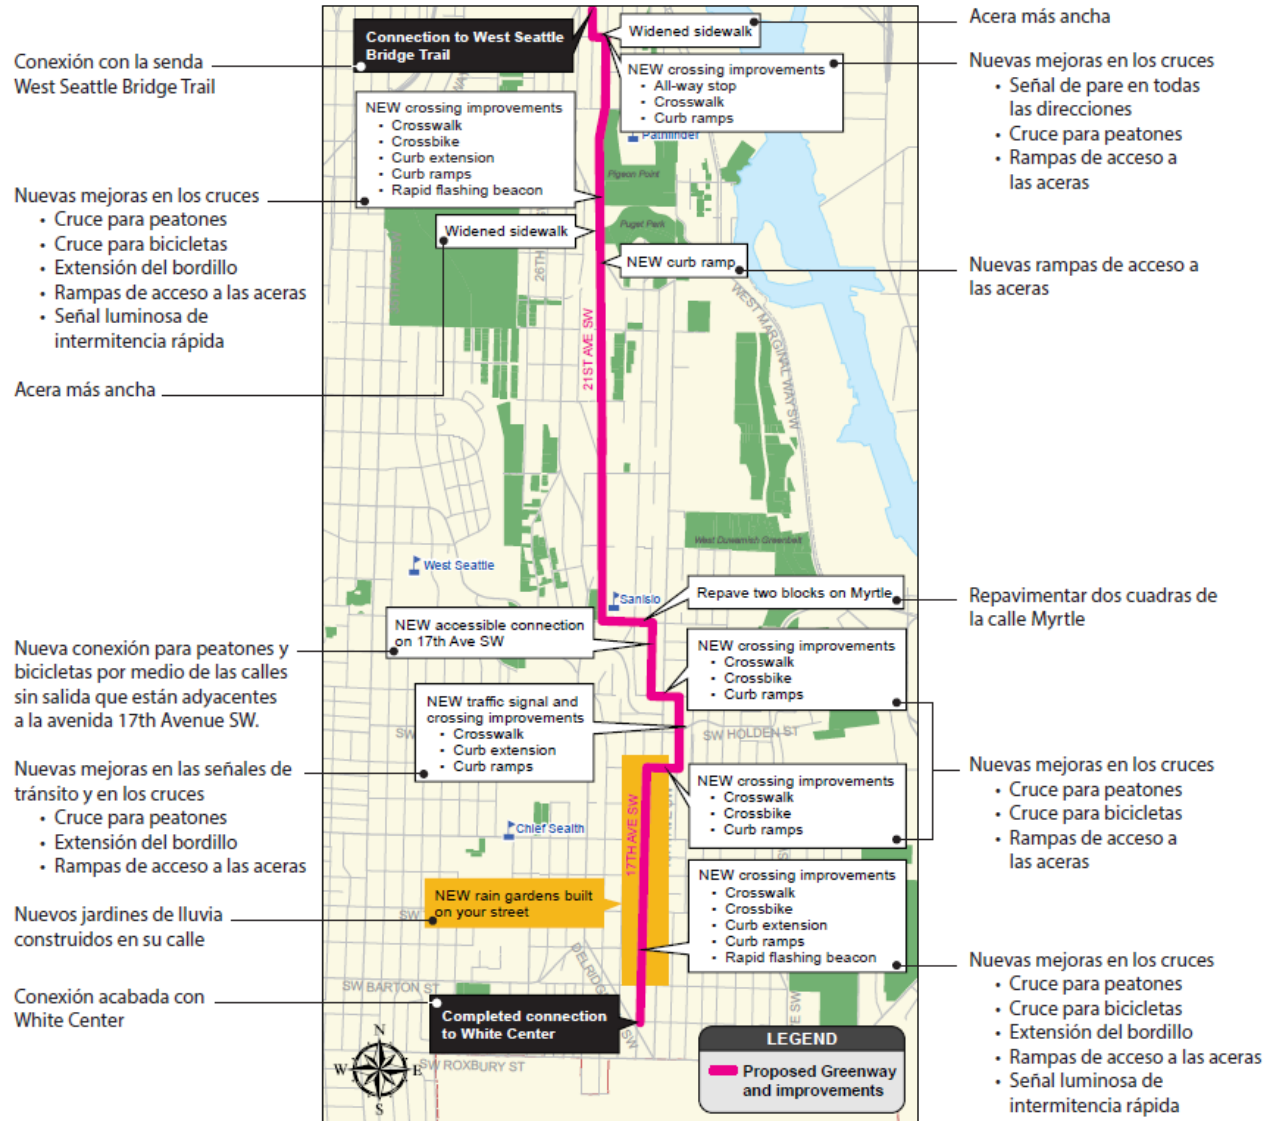

# Rain Gardens Along the Street

- Protect Longfellow Creek from pollutants
- Use special soils and plants to allow rain to slowly absorb into the ground

# Proposed Route

Visit stations  
around the room  
to learn project  
specifics.

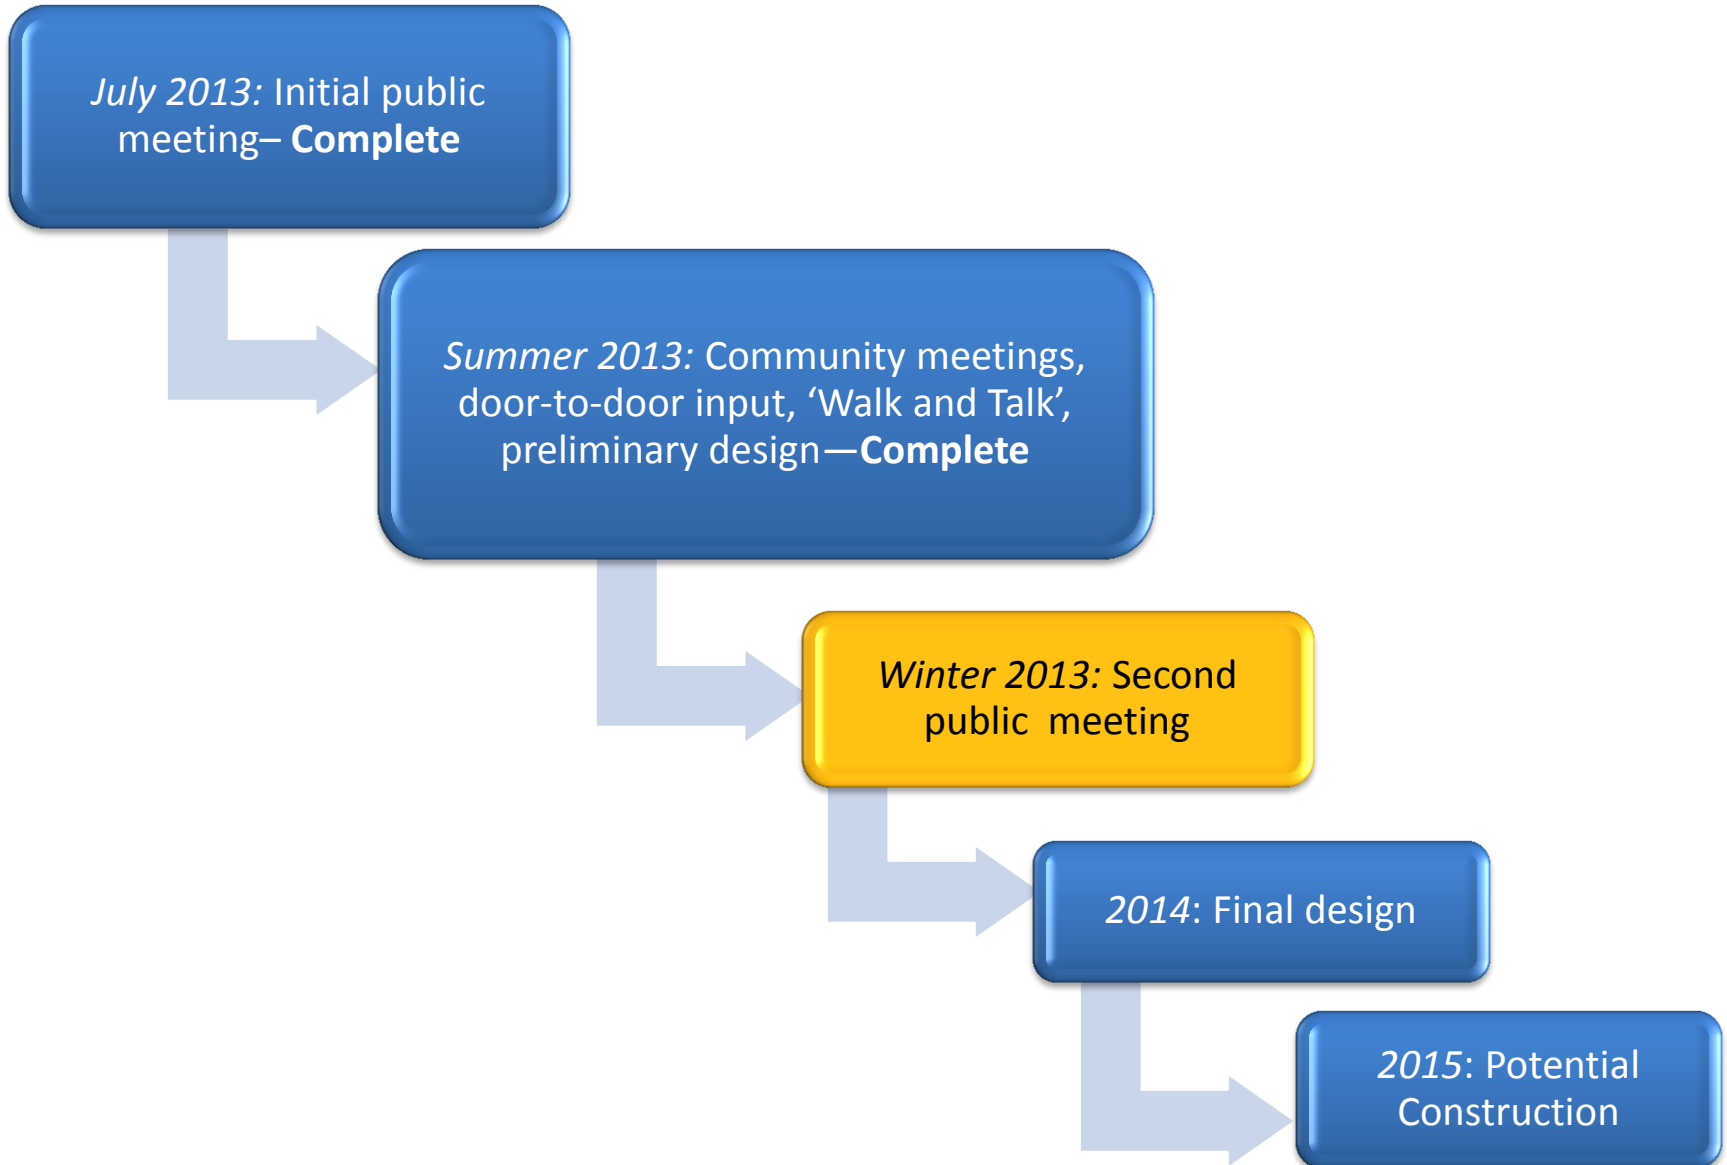

# Building Safer Streets for All

# Project Schedule

# Thank you!

Visit the stations around the room to learn more and ask questions about the neighborhood greenway with rain gardens.
